

Advancing quality.
Improving lives.

AIS Healthcare Ophthalmics is an industry leader in high-quality surgical, clinical and dry eye care solutions.

At our 503A specialty compounding pharmacies in Hunt Valley, Maryland, and Dallas, Texas, we take extra steps and make extra investments to produce patient-specific prescriptions of the highest quality and sterility.

Inspected by the U.S. Food and Drug Administration and national and state boards of pharmacy

A wide portfolio of critical, custom and affordable ophthalmics formulations available

150,000 unique prescriptions filled¹

¹Total unique prescriptions filled since 2015.

We give patients and providers more of what they need to thrive.

Our trained specialists provide comprehensive, proactive patient support throughout the treatment process.

The AIS Healthcare Ophthalmics team does more for patients:

**Coordinates
prescription delivery**

**Educates patients on
their medication**

**Answers patients'
questions**

**Offers 24/7
pharmacy consults**

Our patient support services, combined with our streamlined ordering process and industry-leading customer service, allow for office efficiency and help to give providers the time and flexibility to grow their practices.

Formulations to meet your needs

We have a wide portfolio of patient-specific medications, all produced in facilities that exceed industry standards for patient safety.

Many of our formulations and concentrations are not available at 503B (outsourcing) pharmacies, meaning we offer you more medications with more quality assurance.

Our portfolio includes:

- + Combination dilating drops
- + Dry eye medications
- + STAT medications (fortified anti-infectives)
- + Chemotherapy medications
- + Retina medications
- + Combination pre- and postsurgical drops
- + Preservative-free preparations

OP DROPS[®]

Combination drops and comprehensive support for every surgery

Prepared for each patient in our state-of-the-art pharmacy, OPDrops[®] simplify pre- and postoperative drop regimens.

- Each formulation combines two or three medications into one bottle, making the drop regimen simpler and easier for patients
- We call patients to explain the drop regimen and follow up regularly, helping to increase compliance
- Available for cataract, glaucoma, pterygium, LASIK or any other eye procedure

All OPDrops patients receive proactive support and education throughout their treatment, allowing for efficiency in your office.

Learn more at op-drops.com/hcp or by calling 833.716.0861.

OPDrops often cost less than copays for generic or branded medications.

NovoTEARS®

High-quality serum tears—and high-touch patient engagement—for chronic dry eye patients

NovoTears® serum tears are made with a consistent, proven preparation method that ensures the bioavailability of growth factors that are critical to providing severe dry eye relief.¹ Unlike many other pharmacies and eye banks, we use standard coagulation, centrifuge RPM and spin times for every blood draw, and use nanofiltration to remove particles that may cause inflammation.

- All NovoTears patients can consult directly with a pharmacist, allowing for office efficiency
- Prescriptions often cost less than \$100 per month
- NovoTears prescriptions are typically ready for patients within three to five days

Learn more at novotears.com/hcp or by calling 833.623.0803.

¹Bradley JC et al. Time- and temperature-dependent stability of growth factor peptides in human autologous serum eye drops. *Cornea*. 2009;28(2):200-205.

NovoTEARS®
PLUS

NovoTears® Plus combines NovoTears with cyclosporine, allowing physicians to further customize patients' dry eye regimens.

A 503A pharmacy that does more

Going beyond USP <797> standards

While compounding OPDrops®, our facilities, people and processes go beyond USP <797> standards to produce medications of the highest quality. Learn more on a virtual tour:

aiscaregroup.com/ophthalmicstour.

AIS Healthcare quality standard		USP <797> guidelines
Facilities		
✓	All ISO-classified environments are certified by a third party every three months	Only two certifications required per year
✓	Non-viable particle count done 12 times per year; combined viable air and surface sampling done no fewer than 50 times per year	Non-viable particle count and viable air sampling required twice per year; surface sampling required periodically
People		
✓	Compounding done only by licensed pharmacists	Compounder not required to be a licensed pharmacist
Processes		
✓	Our USP-grade active pharmaceutical ingredients all come from FDA-registered manufacturers and are tested by third-party, independent labs for potency	Just requires packages of bulk ingredients to be compliant with their USP monographs
✓	All OPDrop formulations are tested by a third-party, independent lab for sterility, potency, particulate matter and pH	No specific guidelines

Leading the way in USP <800> compliance

A new set of industry standards, USP <800>, is designed to protect healthcare workers who handle potentially hazardous drugs.

At our Hunt Valley pharmacy, we made extra investments in new processes, staff training and quality procedures to build a USP <800>-compliant facility before the requirements even went into effect, demonstrating our commitment to protecting everyone who works with us.

It's easy to get started.

- + Prescribe via fax or our online physician portal, MyAIS Connect
- + Our team coordinates prescription delivery
- + We bill patients directly for their medication

About AIS Healthcare

As the leading provider of targeted drug delivery (TDD), infusion care and ophthalmic solutions, AIS Healthcare is committed to doing more of what matters. From pharmacies that put patient safety first to comprehensive services that enhance the entire care experience, we go beyond the expected in everything we do.
