AIS Healthcare
Targeted Drug Delivery

Advancing quality.
Improving lives.

Care Connect® includes:

- ✓ Phone-based care management services
- ✓ Focused patient assessments, including optimized pre-refill, functionality and quality of life assessments
- ✓ 24/7/365 telephone support for patients from a team of nurses and pharmacists
- ✓ Patient access to billing and insurance support
- ✓ Health education and community resource information for patients

This program is already covered in the core services offered by AIS Healthcare.

Benefits of Care Connect:

- ✓ Acts as an extension of physicians' practices, providing support that helps clinics better serve patients between appointments
- ✓ Collects current and valuable patient information, helping providers get ahead of problems while reducing unnecessary calls and improving workflows
- ✓ Engages patients, provides access to care and optimizes the care experience
- ✓ Adapts to the patients and the practice, with the ability to opt out at any time

"Care Connect is a great additional communication resource for patients."

Michael Danko, MD

Premier Pain Treatment Institute, Ohio

Our specially trained Care Connect registered nurses assess, triage, educate, report and coordinate. They do not prescribe, diagnose, offer medical advice or suggest medical treatments.

Get started today.

Contact your AIS Healthcare Regional Sales Manager to enroll your practice in Care Connect or one of AIS Healthcare's other care services delivered by a team of more than 190 skilled nurses.
