

# OP DROPS®

Increase medication compliance with affordable combination drops for every surgery, prepared under industry-leading quality standards—and with proactive support and engagement that frees up your staff's time.

Prepared for each patient in our state-of-the-art pharmacy, OPDrops® simplify pre- and postoperative drop regimens. The affordable combination drop kits ship directly to patients' homes with personalized instructions, and our trained specialists engage with patients to further boost compliance.

## Surgical drop programs, simplified

OPDrops offer customized, easy-to-follow surgical drop regimens for each patient, helping to increase compliance.

- + Combines multiple medications into one bottle
- + Can include unit-dose dilating drops for preoperative treatment
- + Includes tailored patient information sheets and instructions
- + For cataract, glaucoma, pterygium, LASIK or any other eye procedure

## Industry-leading quality

Compounded in our state-of-the-art 503A specialty pharmacy, OPDrops offer the highest quality and sterility assurance to providers.

- + All active pharmaceutical ingredients tested by third-party, FDA-registered laboratory
- + Compounded by fully licensed, specially trained pharmacists
- + Facility and processes exceed state and industry standards for quality

OPDrop bottles are specially designed to feel just right in patients' hands, making it easier to properly administer the drops.

All OPDrop formulations are tested by a third-party, independent lab for sterility, potency, particulate matter and pH.

## Proactive patient support and education

Our trained specialists connect directly with your patients to explain the OPDrops program and coordinate logistics, freeing up your staff and allowing your practice the flexibility to grow.

### OUR TEAM:

- + Educates patients on their therapy
- + Calls every patient to confirm medication compliance
- + Offers consultations with pharmacists
- + Arranges contactless delivery to patients' homes

## Affordable medication for every surgery

Our five unique OPDrop formulations each often cost less than copays for generic or branded medications.

OPDROP FORMULATIONS <i>Combination pre-op dilating drops can be added to any kit</i>	ONE BOTTLE <i>Prices include shipment to patient</i>	TWO BOTTLES
DMK Dexamethasone Sod. Phos. 0.1% / Moxifloxacin 0.5% / Ketorolac 0.5%	\$50	\$80
PMB Prednisolone Sod. Phos. 1% / Moxifloxacin 0.5% / Bromfenac 0.075%	\$65	\$95
PM Prednisolone Sod. Phos. 1% / Moxifloxacin 0.5%	\$50	\$80
PB Prednisolone Sod. Phos. 1% / Bromfenac 0.075%	\$55	\$85
MB Moxifloxacin 0.5% / Bromfenac 0.075%	\$55	\$85

## A streamlined process for your office

- + Prescribe OPDrops via fax or e-prescription
- + We will call each patient to explain OPDrops, screen for allergies, coordinate delivery and confirm medication compliance
- + No need to maintain medication inventory or dispensing records
